PROFESSIONAL PROFILE

Full-Stack Developer focused on building production-ready applications across frontend, backend, infrastructure, and AI-assisted development. I came to South Korea to deepen my technical education and build a long-term career in software engineering, completing an M.S. in AI Business Engineering while expanding into modern web systems and AI-integrated applications. My analytical background shaped a disciplined approach to problem-solving, while international study and project work strengthened my adaptability, collaboration, and ownership mindset.

PROFESSIONAL EXPERIENCE

FULL-STACK DEVELOPER — REMOTE

Sep 2022 – Mar 2025

TechNest Digital · Tallinn, Estonia

- Built and maintained full-stack applications using Next.js, NestJS, and MongoDB.
- Developed and integrated REST and GraphQL APIs with reusable frontend components.
- Implemented authentication and backend workflows using JWT, bcrypt, and Multer.
- Worked across frontend, backend, database, and application integration throughout the development lifecycle.
- Supported containerized development and production deployment using Docker, Linux, Git, and GitHub.
